

Subject index

- Abscess, sternal, due to *Bartonella (Rochalimaea) henselae* in a renal transplant patient (*case report*) 431
- Acetabular bone deficiencies, observer variation in the detection of 272
- Acetabular roof and sacrum, insufficiency fractures of, role of MRI in the diagnosis of 517
- Acetabulum, avascular osteonecrosis of 509
- Acromegalic gigantism, bilateral slipped capital femoral epiphysis occurring in an adult with (*case report*) 188
- Acromial morphology, reliability of radiographic evaluation for 718
- Acute knee trauma: how many plain film views are necessary for the initial examination? 298
- Age-related changes in normals and in diffuse neoplastic infiltration: MRI gadolinium enhancement of bone marrow 414
- Alveolar echinococcosis, bone and soft tissue manifestations of 289
- Amyloidosis, hemodialysis-related, of the sternoclavicular joint (*case report*) 428
- Aneurysmal bone cysts, metachronous multiple (*case report*) 564
- Angiomyoma of the lower extremity: MR findings (*case report*) 443
- Ankle joint, MRI of injuries to: can it predict clinical outcome? 82
- Ankle: Os sustentaculi: depiction on MR images (*case report*) 505
- Ankle, rheumatoid, a frequent manifestation of: distal fibular notch 529
- Anterior cruciate ligament reconstruction, tunnel placement in: MRI analysis as an important factor in the radiological report 409
- Anteroinferior tears of the glenoid labrum: fat-suppressed fast spin-echo T2 versus gradient-recalled echo MR images 293
- Arthritis, patellofemoral, malposition of the tibial tubercle during flexion in knees with 597
- Arthrography, MR, of the wrist, scapholunate interosseous ligament in: correlation with non-enhanced MRI and wrist arthroscopy 263
- Arthropathy, erosive, of the hand, natural of course of, in patients undergoing hemodialysis 20
- Autosomal dominant osteopetrosis: report of a Norwegian family with radiographic or anamnestic findings differing from the generally accepted classification 173
- Avascular osteonecrosis of the acetabulum 509
- Bartonella (Rochalimaea) henselae*, sternal abscess due to, in a renal transplant patient (*case report*) 431
- Benign and malignant cartilage tumors of bone and joint: their anatomic and theoretical basis with an emphasis on radiology, pathology and clinical biology. I. The intramedullary cartilage tumours 325
- Benign giant cell tumor of bone with osteosarcomatous transformation ('dedifferentiated' primary malignant GCT): report of two cases 246
- Bilateral fracture-dislocation of the sacroiliac joint (*case report*) 556
- Bilateral slipped capital femoral epiphysis occurring in an adult with acromegalic gigantism (*case report*) 188
- Bone and soft tissue manifestations of alveolar echinococcosis 289
- Bone density in the proximal femur and lumbar spine of children, correlation between dual-energy X-ray absorptiometry measures of 544
- Bone marrow abnormalities, post-traumatic, comparison of pulse sequences in the detection of, at low field strength MRI 538
- Bone marrow, MRI gadolinium enhancement of: age-related changes in normals and in diffuse neoplastic infiltration 414
- Bone marrow, red, MR assessment of distribution and composition in the proximal femur: correlation with clinical and laboratory parameters 589
- Bone reconstruction, large, in skeletally immature patients, imaging of vascularized fibular grafts in 404
- Brachial plexopathy, radiation-induced: MR imaging of 284
- Breast carcinoma, osteoblastic metastases from, with false-negative bone scan (*case report*) 434
- C2-3 facet joint 'pseudo-fusion': anatomic basis of a normal variant 27
- Calcified synovial sarcoma (*case report*) 671
- Calcifying epithelioma of Malherbe (pilotumatrixoma): imaging features (*case report*) 602
- Candida osteomyelitis and disc space infection of the lumbar spine (*case report*) 42
- Carpal tunnel syndrome, dynamic MR imaging of 482
- Cartilage tumors of bone and joint, benign and malignant: Their anatomic and theoretical basis with an emphasis on radiology, pathology and clinical biology. I. The intramedullary cartilage tumors 325
- Cervical spine: C2-3 facet joint 'pseudo-fusion': anatomic basis of a normal variant 27
- Cervical spine, degenerative change in, and load-carrying on the head 475
- Chiari malformation and tonsillar ectopia in twin brothers and father with autosomal dominant spondyloepiphyseal dysplasia tarda (*case report*) 131
- Children, correlation between dual-energy X-ray absorptiometry measures of bone density in the proximal femur and lumbar spine of 544
- Chloroma of the shoulder, MRI features (*case report*) 70
- Chondroblastoma with multiple distant soft tissue metastases (*case report*) 493
- Chondroid, intramedullary, tumors of bone: correlation of abnormal peritumoral marrow and soft-tissue MRI signal with tumor type 100
- Chondromyxoid fibroma, juxtacortical: imaging findings in three cases and a review of the literature 642
- Chondromyxoid fibroma of the lumbar spine (*case report*) 488
- Chondrosarcoma as a complicating factor in Paget's disease of bone (*case report*) 497
- Chondrosarcoma, dedifferentiated, in patients with multiple osteochondromatosis: report of a case and review of the literature 70
- Chondrosarcoma, extraskeletal mesenchymal, of the rectus sheath (*case report*) 501
- Chondrosarcoma, periosteal, invading the medullary cavity (*case report*) 375
- Chondrosarcoma, synovial, arising in synovial chondromatosis of the right hip (*case report*) 366
- Chondrosarcoma, synovial: report of a case and review of the literature 682
- Chronic recurrent multifocal osteomyelitis: a radiological and clinical investigation of five cases 579
- Chronic recurrent multifocal osteomyelitis, MRI in 230
- Clavicle, distal, osteolysis of, does it occur following spinal cord injury? 16
- Comparison of pulse sequences in the detection of post-traumatic bone marrow abnormalities at low field strength MRI 538
- Computed tomography of sternoclavicular joint lesions in spondylarthropathies 419
- Correlation between dual-energy X-ray absorptiometry measures of bone density in the proximal femur and lumbar spine of children 544
- Costo-transverse joints, contralateral, tuberculosis of (*case report*) 741
- CRMO: a radiological and clinical investigation of five cases 579
- Crouzon syndrome, hand anomalies in 113
- CT, helical, of talar fractures 137
- CT of sternoclavicular joint lesions in spondylarthropathies 419
- Cyst, unicameral bone, epiphyseal extension of (*case report*) 51

- Dedifferentiated chondrosarcoma in patients with multiple osteochondromatosis: report of a case and review of the literature 370
- Dedifferentiated parosteal osteosarcoma of the radius (*case report*) 242
- Degenerative change in the cervical spine and load-carrying on the head 475
- Degenerative disk disease at the lumbosacral junction, plain film evaluation of 161
- Degenerative joint disease: cartilage or vascular disease? 398
- Dermatologic conditions with skeletal abnormalities: skin and bones 201
- Developmental dysplasia of the hip, radiologist's guide to the imaging in the diagnosis and treatment of. I. General considerations, physical examination as applied to real-time sonography and radiography 386
- Developmental dysplasia of the hip, radiologist's guide to the imaging in the diagnosis and treatment of. II. Ultrasonography: anatomy, technique, acetabular angle measurements, acetabular coverage of femoral head, acetabular cartilage thickness, three-dimensional technique, screening of newborns, study of older children 447
- DEXA measures of bone density in the proximal femur and lumbar spine of children, correlation between 544
- Diabetic muscle infarction, MRI diagnosis of: report of 2 cases 122
- Diffuse idiopathic skeletal hyperostosis (DISH), prevalence of, in two large American Midwest metropolitan hospital populations 222
- Diffuse neoplastic infiltration, MRI gadolinium enhancement of bone marrow: age-related changes in normals and in 414
- DISH (diffuse idiopathic skeletal hyperostosis), prevalence of, in two large American Midwest metropolitan hospital populations 222
- Disk disease, degenerative, at the lumbosacral junction, plain film evaluation of 161
- Dislocation, posterior, translational injuries in elbow (*case report*) 134
- Distal fibular notch: a frequent manifestation of the rheumatoid ankle 529
- Does osteolysis of the distal clavicle occur following spinal cord injury? 16
- Dual-energy X-ray absorptiometry measures of bone density in the proximal femur and lumbar spine of children, correlation between 544
- Dynamic MR imaging of carpal tunnel syndrome 482
- Dysplasia epiphysealis hemimelica of the knee, MRI appearances of 226
- Dysplasia of the hip, developmental, radiologist's guide to the imaging in the diagnosis and treatment of. I. General considerations, physical examination as applied to real-time sonography and radiography 386
- Dysplasia of the hip, developmental, radiologist's guide to the imaging in the diagnosis and treatment of. II. Ultrasonography: anatomy, technique, acetabular angle measurements, acetabular coverage of femoral head, acetabular cartilage thickness, three-dimensional technique, screening of newborns, study of older children 447
- Dysplastic adult hips, radiographic measurements of 75
- Echinococcosis, alveolar, bone and soft tissue manifestations of 289
- Effusions, Morel-Lavallée, in the thigh 239
- Elbow dislocation, posterior, translational injuries in (*case report*) 134
- Embryonal rhabdomyosarcoma of foot with expansive growth between metatarsals (*case report*) 128
- Enlarged peroneal process with peroneus longus tendon entrapment (*case report*) 313
- Enzyme replacement in Gaucher disease, assessment of skeletal involvement and therapeutic responses to 687
- Epiphyseal extension of a unicameral bone cyst (*case report*) 51
- Epithelioid fibrosarcoma, sclerosing: short T2 on MR imaging (*case report*) 619
- Epithelioid sarcoma with unusual radiological findings (*case report*) 606
- Epithelioma, giant calcifying, of Malherbe (pilomatixoma): imaging features (*case report*) 602
- Erosive arthropathy of the hand, natural course of, in patients undergoing hemodialysis 20
- Ewing's sarcoma of the thumb (*case report*) 725
- Ewing's sarcoma presenting as a solitary bone cyst (*case report*) 722
- Ewing's sarcoma, skip metastases in: a report of three cases 379
- Extensively calcified synovial sarcoma (*case report*) 671
- Extraskelatal mesenchymal chondrosarcoma of the rectus sheath (*case report*) 501
- Facet instability, traumatic thoracolumbar, characteristic imaging findings 360
- Facet joint 'pseudo-fusion', C2-3: anatomic basis of a normal variant 27
- Fat-suppressed MRI of musculoskeletal infection: fast T2-weighted techniques versus gadolinium-enhanced T1-weighted images 654
- Femoral head, entire, ischaemic necrosis of, and rapidly destructive hip disease: potential causative relationship 143
- Fibrolipomatous hamartoma: MRI imaging findings 155
- Fibrosarcoma, sclerosing epithelioid: short T2 on MR imaging (*case report*) 619
- Fibrous dysplasia of bone: case report with autopsy study 80 years after the original clinical recognition of the bone lesions 177
- Fluid-fluid level in an intraosseous ganglion (*case report*) 667
- Fracture, medial Segond-type: cortical avulsion off the medial tibial plateau associated with tears of the posterior cruciate ligament and medial meniscus (*case report*) 553
- Fracture-dislocation, bilateral, of the sacroiliac joint (*case report*) 556
- Fracture-dislocation of the sacroiliac joint and pubic osteolysis mimicking a malignant lesion: report of a case 438
- Fractures, insufficiency, of the sacrum and acetabular roof, role of MRI in the diagnosis of 517
- Fractures, ischiopubic insufficiency: MRI appearances 705
- Fractures, parasymphseal insufficiency, of the os pubis, MR appearance of 525
- Fractures, pelvic insufficiency, associated with radiation atrophy: clinical recognition and diagnostic evaluation 94
- Fractures, supra-acetabular insufficiency, MRI of 279
- Fractures, talar, helical CT of 137
- Fusion, pseudo, C2-3 facet joint: anatomic basis of a normal variant 27
- Ganglion, intraosseous, fluid-fluid level in (*case report*) 667
- Ganglion, intraosseous, in a 6-year-old boy (*case report*) 67
- Gaucher disease: assessment of skeletal involvement and therapeutic responses to enzyme replacement 687
- Giant calcifying epithelioma of Malherbe (pilomatixoma): imaging features (*case report*) 602
- Giant cell tumor, benign, of bone with osteosarcomatous transformation ('dedifferentiated' primary malignant GCT): report of two cases 246
- Gigantism, acromegalic, bilateral slipped capital femoral epiphysis occurring in an adult with (*case report*) 188
- Glenoid labrum, anteroinferior tears of: fat suppressed fast spin-echo T2 versus gradient-recalled echo MR images 293
- Glomus tumors, multiple, of the finger, MRI of (*case report*) 664
- Gluteal manifestation of advanced Hodgkin's disease (*case report*) 622
- Gorham syndrome of the thorax and cervical spine: CT and MRI findings (*case report*) 55
- Gorham's disease of the radius: radiographic, scintigraphic and MRI findings with pathologic correlation. A case report and review of the literature 659
- Gouty tophi, periosteal, of the anterior mid tibia (*case report*) 260
- Gouty tophus simulating soft tissue tumor in a heart transplant recipient (*case report*) 626

- Grafts, vascularized fibular, imaging of, in large bone reconstruction in skeletally immature patients 404
- Granular cell tumor, intramuscular malignant (*case report*) 116
- Hamartoma, fibrolipomatous: MR imaging findings 155
- Hand anomalies in Crouzon syndrome 113
- Hand: Ewing's sarcoma of the thumb (*case report*) 725
- Hand, natural course of erosive arthropathy of, in patients undergoing hemodialysis 20
- Helical CT of talar fractures 137
- Hemangioendothelioma, malignant, of the left calcaneus associated with fever and hematological abnormalities (*case report*) 64
- Hemangioendothelioma, spindle cell, Mafucci's syndrome associated with (*case report*) 191
- Hemangiopericytoma, primary, of bone located in the tibia (*case report*) 47
- Hemodialysis, natural course of erosive arthropathy of the hand in patients undergoing 20
- Hemodialysis-related amyloidosis of the sternoclavicular joint (*case report*) 428
- Hemophilic pseudotumor: spectrum of MR findings 468
- Hibernoma, MR imaging findings in (*letter to the editors*) 507
- Hip: avascular osteonecrosis of the acetabulum 509
- Hip, developmental dysplasia of, the radiologist's guide to the imaging in the diagnosis and treatment of. II. Ultrasonography: anatomy, technique, acetabular angle measurements, acetabular coverage of femoral head, acetabular cartilage thickness, three-dimensional technique, screening of newborns, study of older children 447
- Hip disease, rapidly destructive, and ischaemic necrosis of the entire femoral head: potential causative relationship 143
- Hip, luxatio erecta of: a critical retrospective (*case report*) 548
- Hip: observer variation in the detection of acetabular bone deficiencies 272
- Hip, radiologist's guide to the imaging in the diagnosis and treatment of developmental dysplasia of. I. General considerations, physical examination as applied to real-time sonography and radiography 386
- Hip replacement, total, malignant fibrous histiocytoma at the site of: review of the literature and case report 559
- Hip: supra-acetabular insufficiency fractures, MRI of 279
- Hips, dysplastic adult, radiographic measurements of 75
- Hodgkin's disease, advanced, gluteal manifestation of (*case report*) 622
- Hyperparathyroidism associated with sarcoma of bone 107
- Hyperplastic callus formation in osteogenesis imperfecta (*letter to the editors*) 744
- Iliopsoas myositis mimicking appendicitis: MRI diagnosis (*case report*) 316
- Iliotibial band syndrome, MR findings in 533
- Imaging in the diagnosis and treatment of developmental dysplasia of the hip, radiologist's guide to. I. General considerations, physical examination as applied to real-time sonography and radiography 386
- Imaging in the diagnosis and treatment of developmental dysplasia of the hip, radiologist's guide to. II. Ultrasonography: anatomy, technique, acetabular angle measurements, acetabular coverage of femoral head, acetabular cartilage thickness, three-dimensional technique, screening of newborns, study of older children 447
- Imaging of primary multifocal osseous lymphoma 35
- Imaging of vascularized fibular grafts in large bone reconstruction in skeletally immature patients 404
- Infantile myofibromatosis (*case report*) 611
- Infarction, diabetic muscle, MRI diagnosis of: report of 2 cases 122
- Infection, musculoskeletal, fat-suppressed MRI of: fast T2-weighted techniques versus gadolinium-enhanced T1-weighted images 654
- Instability, traumatic thoracolumbar facet: characteristic imaging findings 360
- Insufficiency fractures, ischiopubic: MRI appearances 705
- Insufficiency fractures of the sacrum and acetabular roof, role of MRI in the diagnosis of 517
- Insufficiency fractures, parasymphyseal, of the os pubis, MR appearance of 525
- Insufficiency fractures, pelvic, associated with radiation atrophy: clinical recognition and diagnosis evaluation 94
- Insufficiency fractures, supra-acetabular, MRI of 279
- Intramedullary cartilage tumours: Benign and malignant cartilage tumors of bone and joint: their anatomic and theoretical basis with an emphasis on radiology, pathology and clinical biology, part I 325
- Intramedullary chondroid tumors of bone: correlation of abnormal peritumoral marrow and soft-tissue MRI signal with tumor type 100
- Intramuscular malignant granular cell tumor (*case report*) 116
- Intraneural synovial sarcoma (*case report*) 677
- Intraosseous ganglion, fluid-fluid level in (*case report*) 667
- Intraosseous ganglion in a 6-year-old boy (*case report*) 67
- Intraosseous neurilemmoma of the fibula (*case report*) 60
- Ischaemic necrosis of the entire femoral head and rapidly destructive hip disease: potential causative relationship 143
- Ischiopubic insufficiency fractures: MRI appearances 705
- Juxtacortical chondromyxoid fibroma: imaging findings in three cases and a review of the literature 642
- Knee: medial Second-type fracture: cortical avulsion off the medial tibial plateau associated with tears of the posterior cruciate ligament and medial meniscus (*case report*) 553
- Knee, meniscal position on routine MR imaging of 424
- Knee trauma, acute: how many plain film views are necessary for the initial examination? 298
- Knee: tunnel placement in anterior cruciate ligament reconstruction: MRI analysis as an important factor in the radiological report 409
- Knee: untreated osteochondritis dissecans of the femoral condyles: prediction of patient outcome using radiographic and MR findings 463
- Knees with patellofemoral arthritis, malposition of the tibial tubercle during flexion in 597
- Laser guidance system for percutaneous musculoskeletal procedures, potentials of 650
- Ligament reconstruction, anterior cruciate, tunnel placement in: MRI analysis as an important factor in the radiological report 409
- Ligament, spring, traumatic tear of, in a pole vaulter, MR diagnosis of (*case report*) 310
- Limb salvage surgery for osteosarcoma of the distal femur, MR imaging based strategies in 636
- Lipoma and liposarcoma, septum-like structures in: MR imaging and pathologic correlation 150
- Liposarcoma and lipoma, septum-like structures in: MR imaging and pathologic correlation 150
- Liposarcoma of soft tissue: MRI findings with pathologic correlation 167
- Lumbar spine, candida osteomyelitis and disc space infection of (*case report*) 42
- Luxatio erecta of the hip: a critical retrospective (*case report*) 548
- Lymphoma arising in Paget's disease (*case report*) 729
- Lymphoma, non-Hodgkin, in skeletal muscle manifesting as homogeneous masses with CT attenuation similar to muscle 633
- Lymphoma of bone, primary non-Hodgkin, MRI appearance of 629
- Lymphoma, primary multifocal osseous, imaging of 35

- Maffucci's syndrome associated with spindle cell hemangioendothelioma (*case report*) 191
- Magnetic resonance imaging features of chloroma of the shoulder (*case report*) 70
- Magnetic resonance imaging of injuries to the ankle joint: can it predict clinical outcome? 82
- Magnetic resonance imaging of osteonecrosis in divers: comparison with plain radiographs 354
- Malignant and benign cartilage tumors of bone and joint: their anatomic and theoretical basis with an emphasis on radiology, pathology and clinical biology. I. The intramedullary cartilage tumours 325
- Malignant degeneration of radiation-induced osteochondroma (*case report*) 195
- Malignant fibrous histiocytoma at the site of a total hip replacement: review of the literature and case report 559
- Malignant hemangioendothelioma of the left calcaneus associated with fever and hematological abnormalities (*case report*) 64
- Malignant lesion, pubic osteolysis mimicking: report of a case with a fracture-dislocation of the sacroiliac joint 438
- Malposition of the tibial tubercle during flexion in knees with patellofemoral arthritis 597
- Marrow, red, MR assessment of distribution and composition in the proximal femur: correlation with clinical and laboratory parameters 589
- Medial Second-type fracture: cortical avulsion off the medial tibial plateau associated with tears of the posterior cruciate ligament and medial meniscus (*case report*) 553
- Meniscal position on routine MR imaging of the knee 424
- Mesenchymal chondrosarcoma, extraskeletal, of the rectus sheath (*case report*) 501
- Metachronous multiple aneurysmal bone cysts (*case report*) 564
- Metastases, multiple distal soft tissue, chondroblastoma with (*case report*) 493
- Metastases, osteoblastic, from breast carcinoma with false-negative bone scan (*case report*) 434
- Metastases, skip, in Ewing's sarcoma: a report of three cases 379
- Metastases, the case for, in synchronous multicentric osteosarcoma 569
- MIBG imaging in the neuroblastoma diagnostic strategy, place of (*letter to the editors*) 323
- Microscopic intraosseous extension of osteosarcoma: assessment on dynamic contrast-enhanced MRI 214
- Morel-Lavallée effusions in the thigh 239
- MR appearance of parasymphyseal insufficiency fractures of the os pubis 525
- MR arthrography of the wrist, scapholunate interosseous ligament in: correlation with non-enhanced MRI and wrist arthroscopy 263
- MR assessment of red marrow distribution and composition in the proximal femur: correlation with clinical and laboratory parameters 589
- MR diagnosis of traumatic tear of the spring ligament in a pole vaulter (*case report*) 310
- MR findings in iliotibial band syndrome 533
- MR imaging and pathologic correlation: septum-like structures in lipoma and liposarcoma 150
- MR imaging based strategies in limb salvage surgery for osteosarcoma of the distal femur 636
- MR imaging findings in hibernoma (*letter to the editors*) 507
- MR imaging of musculoskeletal tumors and tumor mimickers with intravenous gadolinium: experience with 242 patients 2
- MR imaging of supra-acetabular insufficiency fractures 279
- MR imaging of the knee, routine, meniscal position on 424
- MRI appearance of primary non-Hodgkin's lymphoma of bone 629
- MRI appearances of dysplasia epiphysealis hemimelica of the knee 226
- MRI diagnosis of diabetic muscle infarction: report of 2 cases 122
- MRI, fat suppressed, of musculoskeletal infection: fast T2-weighted techniques versus gadolinium-enhanced T1-weighted images 654
- MRI features of chloroma of the shoulder (*case report*) 70
- MRI gadolinium enhancement of bone marrow: age-related changes in normals and in diffuse neoplastic infiltration 414
- MRI in chronic recurrent multifocal osteomyelitis 230
- MRI in the diagnosis of insufficiency fractures of the sacrum and acetabular roof, role of 517
- MRI of injuries to the ankle joint: can it predict clinical outcome? 82
- MRI of multiple glomus tumors of the finger (*case report*) 664
- MRI of osteonecrosis in divers: comparison with plain radiographs 354
- Muscle, skeletal, non-Hodgkin lymphoma in, manifesting as homogeneous masses with CT attenuation similar to muscle 633
- Musculoskeletal infection, fat-suppressed MRI of: fast T2-weighted techniques versus gadolinium-enhanced T1-weighted images 654
- Musculoskeletal tumors and tumor mimickers, MR imaging of, with intravenous gadolinium: experience with 242 patients 2
- Mycetoma of the calf (*case report*) 319
- Myofibromatosis, infantile (*case report*) 611
- Myositis, iliopsoas, mimicking appendicitis: MRI diagnosis (*case report*) 316
- Natural course of erosive arthropathy of the hand in patients undergoing hemodialysis 20
- Necrosis, ischaemic, of the entire femoral head and rapidly destructive hip disease: potential causative relationship 143
- Neurilemmoma, intraosseous, of the fibula (*case report*) 60
- Neuroblastoma diagnostic strategy, place of MIBG imaging in (*letter to the editors*) 323
- Non-Hodgkin lymphoma in skeletal muscle manifesting as homogeneous masses with CT attenuation similar to muscle 633
- Non-Hodgkin's lymphoma of bone, primary, MRI appearances of 629
- Normal morphology of sacroiliac joints in children: magnetic resonance studies related to age and sex 697
- Normal variant, anatomic basis of a: C2-3 facet joint 'pseudo-fusion' 27
- Observer variation in the detection of acetabular bone deficiencies 272
- Os acromiale: evaluation of markers for identification on sagittal and coronal oblique MR images 31
- Os sustentaculi: depiction on MR images (*case report*) 505
- Ossifying fibromyxoid tumor of soft parts, radiographic appearance of (*case report*) 615
- Osteitis pubis (symphysis pubis stress injury) and sacroiliac abnormalities, the relationship between, in athletes with pelvic stress injuries 711
- Osteoblastic metastases from breast carcinoma with false-negative bone scan (*case report*) 434
- Osteochondritis dissecans of the femoral condyles, untreated: prediction of patient outcome using radiographic and MR findings 463
- Osteochondroma, radiation-induced, malignant degeneration of (*case report*) 195
- Osteochondromatosis, multiple, dedifferentiated chondrosarcoma in patients with: report of a case and review of the literature 370
- Osteogenesis imperfecta, hyperplastic callus formation in (*letter to the editors*) 744
- Osteoid osteoma, subperiosteal: radiographic and pathologic manifestations 457
- Osteolysis of the distal clavicle, does it occur following spinal cord injury? 16
- Osteolysis, pubic, mimicking a malignant lesion: report of a case with a fracture-dislocation of the sacroiliac joint 438
- Osteomyelitis, candida, and disc space infection of the lumbar spine (*case report*) 42

- Osteomyelitis, chronic recurrent multifocal: a radiological and clinical investigation of five cases 579
- Osteomyelitis, chronic recurrent multifocal, MRI in 230
- Osteonecrosis, avascular, of the acetabulum 509
- Osteonecrosis in divers, MRI of: comparison with plain radiographs 354
- Osteopetrosis, autosomal dominant: report of a Norwegian family with radiographic or anamnestic findings differing from the generally accepted classification 173
- Osteoporosis, transient, of the knee (*case report*) 306
- Osteosarcoma, microscopic intraosseous extension of: assessment on dynamic contrast-enhanced MRI 214
- Osteosarcoma of the distal femur, MR imaging based strategies in limb salvage surgery for 636
- Osteosarcoma, soft tissue, with telangiectatic features: MR imaging findings in two cases (*case report*) 732
- Osteosarcoma, synchronous multicentric: the case for metastases 569
- Paget's disease, lymphoma arising in (*case report*) 729
- Paget's disease of bone, chondrosarcoma as a complicating factor in (*case report*) 497
- Parosteal osteosarcoma, dedifferentiated, of the radius (*case report*) 242
- Pelvic insufficiency fractures associated with radiation atrophy: clinical recognition and diagnostic evaluation 94
- Pelvic stress injuries: the relationship between osteitis pubis (symphysis pubis stress injury) and sacroiliac abnormalities in athletes 711
- Pelvis: ischiopubic insufficiency fractures: MRI appearances 705
- Pelvis: MR appearance of parasymphyseal insufficiency fractures of the os pubis 525
- Pelvis: role of MRI in the diagnosis of insufficiency fractures of the sacrum and acetabular roof 517
- Percutaneous musculoskeletal procedures, potentials of laser guidance system for 650
- Periosteal chondrosarcoma invading the medullary cavity (*case report*) 375
- Periosteal gouty tophi of the anterior mid tibia (*case report*) 260
- Peroneus longus tendon entrapment, enlarged peroneal process with (*case report*) 313
- Pilomatrixoma (giant calcifying epithelioma of Malherbe): imaging features (*case report*) 602
- Place of mIBG imaging in the neuroblastoma diagnostic strategy (*letter to the editors*) 323
- Plain film evaluation of degenerative disk disease at the lumbosacral junction 161
- Plain film views, how many are necessary for the initial examination in acute knee trauma? 298
- PNET in a child with tuberous sclerosis (*case report*) 184
- Post-traumatic bone marrow abnormalities, comparison of pulse sequences in the detection of, at low field strength MRI 538
- Potentials of laser guidance system for percutaneous musculoskeletal procedures 650
- Prevalence of diffuse idiopathic skeletal hyperostosis (DISH) in two large American Midwest metropolitan hospital populations 222
- Primary hemangiopericytoma of bone located in the tibia (*case report*) 47
- Primitive neuroectodermal tumor in a child with tuberous sclerosis (*case report*) 184
- Pubic osteolysis mimicking a malignant lesion: report of a case with a fracture-dislocation of the sacroiliac joint 438
- Publication, twenty years of 1
- Radiation atrophy, pelvic insufficiency fractures associated with: clinical recognition and diagnostic evaluation 94
- Radiation-induced brachial plexopathy: MR imaging 284
- Radiation-induced osteochondroma, malignant degeneration of (*case report*) 195
- Radiographic appearance of an ossifying fibromyxoid tumor of soft parts (*case report*) 615
- Radiographic evaluation for acromial morphology, reliability of 718
- Radiographic measurements of dysplastic adult hips 75
- Radiologist's guide to the imaging in the diagnosis and treatment of developmental dysplasia of the hip. I. General considerations, physical examination as applied to real-time sonography and radiography 386
- Radiologist's guide to the imaging in the diagnosis and treatment of developmental dysplasia of the hip. II. Ultrasonography: anatomy, technique, acetabular angle measurements, acetabular coverage of femoral head, acetabular cartilage thickness, three-dimensional technique, screening of newborns, study of older children 447
- Reflex sympathetic dystrophy, ulnar distribution of, due to compression of the brachial plexus by a primary venous malformation (*case report*) 303
- Reliability of radiographic evaluation for acromial morphology 718
- Renal transplant patient, sternal abscess due to *Bartonella (Rochalimaea) henselae* in a (*case report*) 431
- Rhabdomyosarcoma, embryonal, of foot with expansive growth between metatarsals (*case report*) 128
- Rheumatoid ankle, frequent manifestation of: distal fibular notch 529
- Role of MRI in the diagnosis of insufficiency fractures of the sacrum and acetabular roof 517
- Sacroiliac abnormalities and osteitis pubis (symphysis pubis stress injury), the relationship between, in athletes with pelvic stress injuries 711
- Sacroiliac joint, bilateral fracture-dislocation of (*case report*) 556
- Sacroiliac joint, fracture-dislocation of, and pubic osteolysis mimicking a malignant lesion: report of a case 438
- Sacroiliac joints in children, normal morphology of: magnetic resonance studies related to age and sex 697
- Sacrum and acetabular roof, insufficiency fractures of, role of MRI in the diagnosis of 517
- Sarcoma of bone, hyperparathyroidism associated with 107
- Scapholunate interosseous ligament in MR arthrography of the wrist: correlation with non-enhanced MRI and wrist arthroscopy 263
- Sclerosing epithelioid fibrosarcoma: short T2 on MR imaging (*case report*) 619
- Second-type fracture, medial: cortical avulsion off the medial tibial plateau associated with tears of the posterior cruciate ligament and medial meniscus (*case report*) 553
- Septum-like structures in lipoma and liposarcoma: MR imaging and pathologic correlation 150
- Shoulder: anteroinferior tears of the glenoid labrum: fat-suppressed fast spin-echo T2 versus gradient-recalled echo MR images 293
- Shoulder: os acromiale: evaluation of markers for identification on sagittal and coronal oblique MR images 31
- Shoulder: reliability of radiographic evaluation for acromial morphology 718
- Shoulder: sonographic anatomy of the supraspinatus tendon and adjacent structures 89
- Skin and bones: dermatologic conditions with skeletal abnormalities 201
- Skip metastases in Ewing's sarcoma: a report of three cases 379
- Slipped capital femoral epiphysis, bilateral, occurring in an adult with acromegalic gigantism (*case report*) 188
- Soft tissue, liposarcoma of: MRI findings with pathologic correlation 167
- Soft tissue osteosarcoma with telangiectatic features: MR imaging findings in two cases (*case report*) 732
- Soft tissue tumor in a heart transplant recipient, gouty tophus simulating (*case report*) 626
- Solitary bone cyst, Ewing's sarcoma presenting as (*case report*) 722
- Sonographic anatomy of the supraspinatus tendon and adjacent structures 89
- Spinal cord injury, does osteolysis of the distal clavicle occur following? 16

- Spinal tuberculosis, posterior or vertebral arch (*case report*) 737
- Spine: plain film evaluation of degenerative disk disease at the lumbosacral junction 161
- Spine: traumatic thoracolumbar instability: characteristic imaging findings 360
- Spine: tuberculosis of contralateral costo-transverse joints (*case report*) 741
- Spondylarthropathies, CT of sternoclavicular joint lesions in 419
- Spondyloepiphyseal dysplasia tarda, autosomal dominant, Chiari malformation and tonsillar ectopia in twin brothers and father with (*case report*) 131
- Spring ligament, traumatic tear of, in a pole vaulter, MR diagnosis of (*case report*) 310
- Sternal abscess due to *Bartonella* (*Rochalimaea henselae*) in a renal transplant patient (*case report*) 431
- Sternoclavicular joint, hemodialysis-related amyloidosis of (*case report*) 428
- Sternoclavicular joint lesions in spondyloarthropathies, CT of 419
- Stress injuries, pelvic: the relationship between osteitis pubis (symphysis pubis stress injury) and sacroiliac abnormalities in athletes 711
- Subperiosteal osteoid osteoma: radiographic and pathologic manifestations 457
- Supra-acetabular insufficiency fractures, MRI of 279
- Supra-acetabular line (*letter to the editors*) 199
- Supraspinatus tendon and adjacent structures, sonographic anatomy of 89
- Synchronous multicentric osteosarcoma: the case for metastases 569
- Synovial chondromatosis of the right hip, synovial chondrosarcoma arising in (*case report*) 366
- Synovial chondrosarcoma arising in synovial chondromatosis of the right hip (*case report*) 366
- Synovial ciundrosarcoma: report of a case and review of the literature 682
- Synovial sarcoma, extensively calcified (*case report*) 671
- Synovial sarcoma, intraneural (*case report*) 677
- Synovial sarcoma of the hand (*case report*) 674
- Talar fractures, helical CT of 137
- Tear, traumatic, of the spring ligament in a pole vaulter, MR diagnosis of (*case report*) 310
- Tendons, ankle, xanthomatous infiltration of (*case report*) 256
- Tibial tubercle, malposition of, during flexion in knees with patellofemoral arthritis 597
- Total hip replacement, malignant fibrous histiocytoma at the site of: review of the literature and case report 559
- Transient osteoporosis of the knee (*case report*) 306
- Translational injuries in posterior elbow dislocation (*case report*) 134
- Traumatic thoracolumbar facet instability: characteristic imaging findings 360
- Tuberculosis of contralateral costo-transverse joints (*case report*) 741
- Tuberculosis, vertebral arch or posterior spinal (*case report*) 737
- Tuberous sclerosis, primitive neuroectodermal tumor in a child with (*case report*) 184
- Tumors, musculoskeletal, and tumor mimickers, MR imaging of, with intravenous gadolinium: experience with 242 patients 2
- Tunnel placement in anterior cruciate ligament reconstruction: MRI analysis as an important factor in the radiological report 409
- Ulnar distribution of reflex sympathetic dystrophy due to compression of the brachial plexus by a primary venous malformation (*case report*) 303
- Ultrasonography: anatomy, technique, acetabular angle measurements, acetabular coverage of femoral head, acetabular cartilage thickness, three-dimensional technique, screening of newborns, study of older children. Radiologist's guide to the imaging in the diagnosis and treatment of developmental dysplasia of the hip. Part II. 447
- Unicameral bone cyst, epiphyseal extension of (*case report*) 51
- Untreated osteochondritis dissecans of the femoral condyles: prediction of patient outcome using radiographic and MR findings 463
- Vertebral arch or posterior spinal tuberculosis (*case report*) 737
- Wrist: dynamic MR imaging of carpal tunnel syndrome 482
- Wrist, scapholunate interosseous ligament in MR arthrography of: correlation with non-enhanced MRI and wrist arthroscopy 263
- Xanthomatous infiltration of ankle tendons (*case report*) 256
